

Front End Developer - Take Home Challenge

Description

Create a fully working page with these requirements:

1. This website will be a responsive (mobile-first) web, having a similar look for both Desktop and Mobile.
2. The design and assets needed will be provided through Zeplin (invitation will be shared to your email).
3. You may:
 - a. Use any library for the Slider part.
 - b. Use CSS preprocessor / postprocessor (e.g. SASS, LESS, Post-CSS).
 - c. Use any CSS framework such as Bootstrap.
 - d. Add other functionality to UI / UX (e.g. Animation).
4. Using a Javascript framework / library such as React / Vue / Angular is a plus.

(optional)

5. You could use these APIs to get the data needed **(optional)**
 - a. Get Testimonial
<https://wknd-take-home-challenge-api.herokuapp.com/testimonial>
 - b. Get Help & Tips
<https://wknd-take-home-challenge-api.herokuapp.com/help-tips>

Criteria

1. UI / UX
Pixel-perfect result with 90% accuracy compared to the design
2. HTML
Neat and optimized HTML without unnecessary HTML and attribute
3. CSS
Neat and optimized CSS without nested selector and reusable CSS
4. Javascript
Clean and optimized code with correct functionality

Test Duration

You have a maximum **1 week** to deliver the test result after we sent this test.

Result

You will have to present the result during the interview process (Please bring your laptop if needed).

Delivery

Send the test results without unused folder / file (e.g. *node_modules*) using .zip and put it inside Google Drive or Dropbox to aditya@weekendinc.com, cc-ed to rahaditya.wicaksono@weekendinc.com
